In our opinion, the best rentals are the 222 Cruiser, Keewaydin, Northwind or Winisk as they have a good blend of speed, seaworthiness and river handling characteristics. Any of these models are well suited for paddling with either traditional or bent-shaft paddles. Please note that our 222 Cruisers are three-seaters, making it the heaviest of these canoes (approx. 55 lbs). Teams may remove the middle seat for the race but must return the canoe with the seat installed
